**Describe your personal health initiatives and alignment with #MissAmericaFit:**  
I currently have an audience of 20,000 on social media who I share my workout routine with on a daily basis. As Miss Louisiana, I will increase my following and encourage everyone to be heart healthy. I believe it is important to stay physically fit, but it is especially important to set goals at a young age, adjusting those goals through life.

**What social issue, other than your CSI, will have the greatest impact on your generation and why?** The ability to communicate on a personal basis with true verbal communication is a problem in our society. Cell phones have become a huge distraction in our culture. We are constantly tied to our phones. I encourage children and young adults to put their phones down and limit screen time. I have a niece in high school who I talk to often about the dangers of too much screen time.

**Name three items on your 'bucket list' in the next five years:** 1. Visit the White House and have a one on one with the President of the United States. 2. Take a month-long trip to Hawaii, visiting the major islands for a week at a time. 3. I would like to be serving as a congresswoman representing the great State of Louisiana.
